

Email Archiving / eDiscovery / Analytics / Virtualization

VMWARE EDITION

THE MESSAGE LOGIC MLARCHIVERVM COMBINES INDUSTRY-LEADING ARCHIVING AND COMPLIANCE MONITORING WITH THE SCALE-ON-DEMAND **VMWARE VIRTUALIZATION CAPABILITIES** TO DELIVER A POWERFUL, LONG-TERM SOLUTION TO YOUR EMAIL ARCHIVING AND LEGAL DISCOVERY REQUIREMENT.

MLArchiverVM

Email Archiving Virtualization Software

Virtualization is one of IT's fastest growing trends. Why businesses choose a VMwareReady solution: "VMware Ready designates VMware's highest level of endorsement for products and solutions created by our established partners." (VMware)

Maintain your company's competitive edge by choosing the best virtualization solution that will meet your business requirements today—and will grow with your business tomorrow. MLArchiverVM is an intelligent archiving and compliance monitoring system that speeds up investigations, reduces litigation costs, manages compliance policies, and cuts IT operational expenses—reducing business risk.

MLArchiverVM converts email and other electronic communications into "Corporate Records."

Emails become searchable documents that are easily retrieved for regulatory, legal, corporate governance, audits and internal review.

Proactive analytics provide real-time knowledge and policy enforcement by scanning each email against a set of customizable business rules.

The criteria include 50+ standard and customizable categories.

The integrated system allows authorized users to easily and thoroughly search and review email history from a convenient, single interface.

Non-compliant emails can be identified, triggering real-time alerts to the sender, receiver or manager.

The system acts as a secure, long-term message communications repository, with advanced cross-archive searching and retrieval capabilities. As a result MLArchiver dramatically reduces the cost of legal and regulatory discovery.

The system integrates with nearly all email systems such as Exchange, Domino, Kerio, Google and more. It also includes retrieval of additional data sources such as instant messages, Bloomberg IM and social media.

Industries

Financial

- Financial firms face all of the same challenges as every business with the added complexity of dealing with an extensive list of regulations.
- We provide solutions for various Financial Services to protect—Brokerage, Banking, Financial Advisors, Private Equity and Hedge Funds.

Government & Education

- It is likely that an email archiving system is mandatory for most schools and government bodies.
- There are many rigorous requirements for email archiving and electronic discovery to protect—Federal, State and Local governments, as well as educational institutions from elementary to colleges and universities.

Health Care

- Email and instant messages (IM), have become the prevalent means of communication for healthcare providers. It has become a necessity to take special care of personal confidential information.
- We provide solutions to protect—Hospitals, Clinics, Doctors and Providers along with Pharmaceutical and Biotech.

Other Business—Manufacturing, service companies and much more

- MLarchiverVM addresses the email archiving needs for all size business—Small, Midsize and Enterprise.

MLArchiverVM Tool Box

Archiving

- Automatically archives electronic messages based on flexible policies and advanced indexing.
- Indexes full text, including all message body, headers, footers, metadata and all attachment types.
- Leverages your VMware environment for scalable storage and processing power.
- Flexibly manages the retention period of all messages and attachments.
- Manages legal hold, extending retention periods during litigation.

Compliance

- Satisfies SEC Rule 17a-3, 17a-4 Archiving Requirements, NASD Rule 3010(d), and NYSE Rule 342c.
- Satisfies Sarbanes-Oxley Section 103(a), Section 801(a), Section 104(a), Section 501(a), Section 105(b), and Section 301(4).
- Satisfies Freedom of Information Act, Sunshine Laws, Open Meeting requirements, CFR11, FDA and Patriot Act and many more requirements.
- Complies with sections of HIPAA, Gramm-Leach-Bliley, CFTC, and provides legal and accounting audit and litigation support.
- Monitors key words and phrases and words that violate regulations.
- Enables customization of client-defined lexicons and policies.
- Complies with the Federal Rules of Civil Procedures (FRCP) requirements for emails as evidence

in trials. Also, compatible with legal case management systems.

- Provides supervision tools for random sampling, % sampling and flagging trading terms.
- Flags any non-compliant messages.

Search & Discovery

- Acts as a total legal and regulatory investigation tool with advanced search and discovery capabilities.
- Basic searches can be based on senders, receivers, text, phrases, message tags and categories.
- Advanced searches add Boolean connectors, Fuzzy searching, Proximity searches and much more.
- Offers efficient, high-volume search and production capabilities for fast, user-friendly retrieval, review and export of your archived documents.

Powerful Analytics

Analytics are a unique feature of Message Logic. MLArchiverVM provides real time analytics on 50+ categories (social security numbers, foul language, medical terms, trading terms, message sizes), as they process into the archive to create intelligent, meaningful data for business operations. This includes:

- Real-time alerts.
- Policy enforcement.
- In-depth analysis of activities for regulatory, legal and internal review.

Employee Archive Access

- Employees can access all of their archived mail through a web interface or Outlook plugin.

- Integrates with LDAP/Active Directory for easy authentication.
- Allows IT to enforce mailbox size.
- Gives employees access to older messages in the long-term archive.

Professional Services

We are here to assist you when you need us with a comprehensive set of services to help meet your compliance and business objectives:

- Legacy data migration of legacy data into the archive.
- High volume exporting.
- Assistance with search and discovery.
- Best practice consulting.

Additional Services

These services are also available:

- Backup and recovery.
- High availability.
- Disaster recovery.

VMWare Ready Features

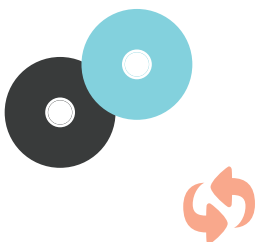

- Downloadable media.
- OVF Format.
- Works with any Virtual environment including ESX and ESXi.
- Unlimited scalability of storage, processing power and more.
- Reduced datacenter footprint and all of the benefits of virtualization.
- vSphere with ESX and ESXi.

MLArchiverVM License Models

1 Year MLPro Support Included.

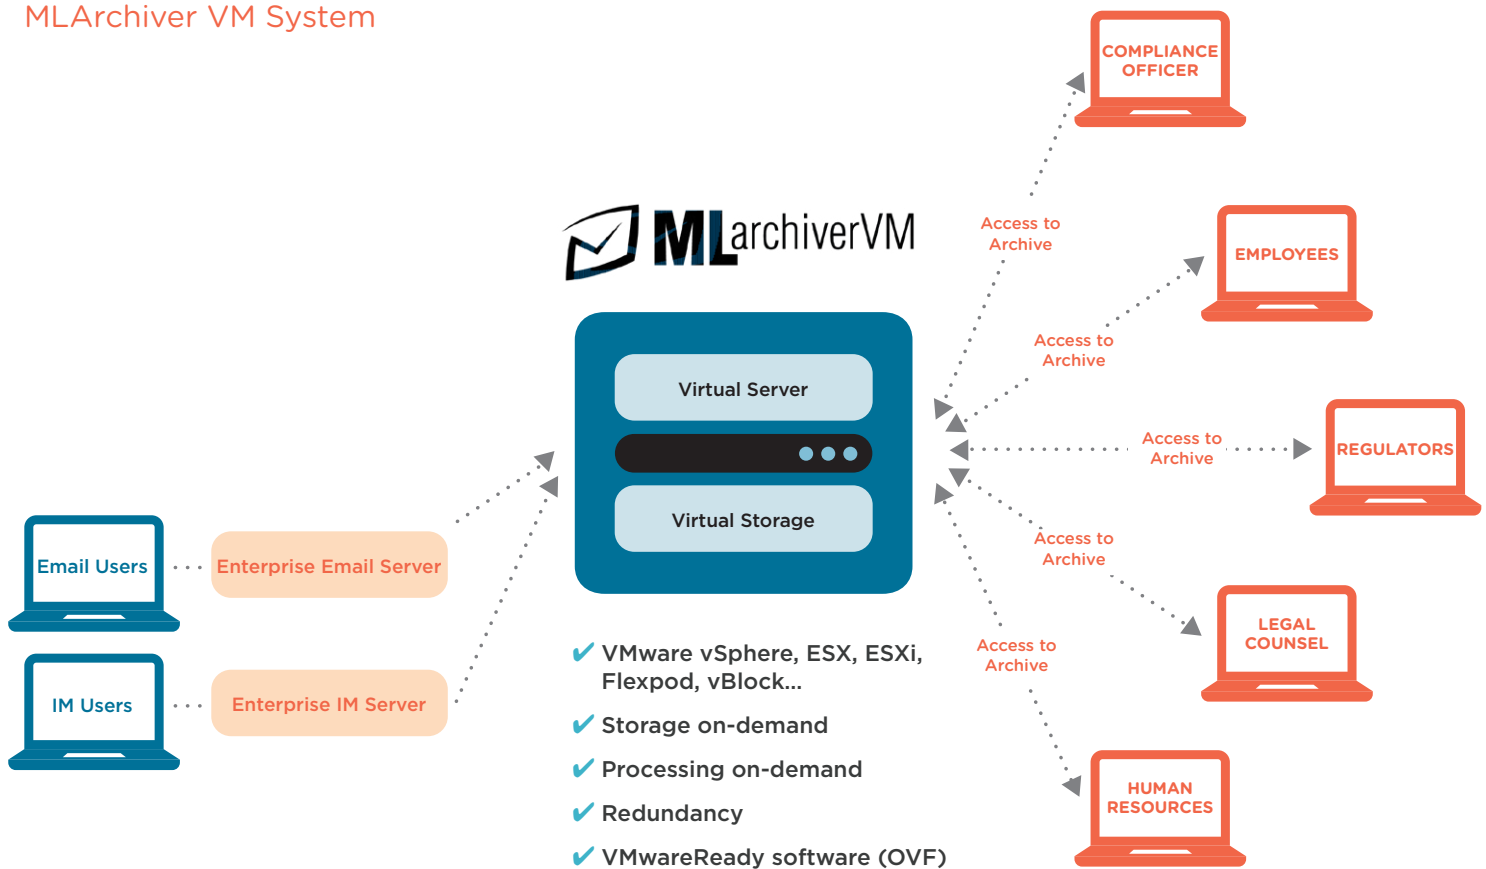

Compatible with VMware vSphere, ESX, ESXi, VBlock, Flex-Pod and More.

About Data Storage

Message Logic is a business unit of Data Storage Corporation which delivers regulatory compliant message archiving and analytics.

Data Storage Corporation (DSC), an 11-year veteran in cloud-based technology solutions provides infrastructure and software as a service driving down costs and focused on compliance, message archiving, analytics, disaster recovery and business continuity assisting organizations to protect their data, minimize downtime, and ensure compliance with regulations.

Data Storage Corporation
Excellence in Data Protection and Recovery

About VMware

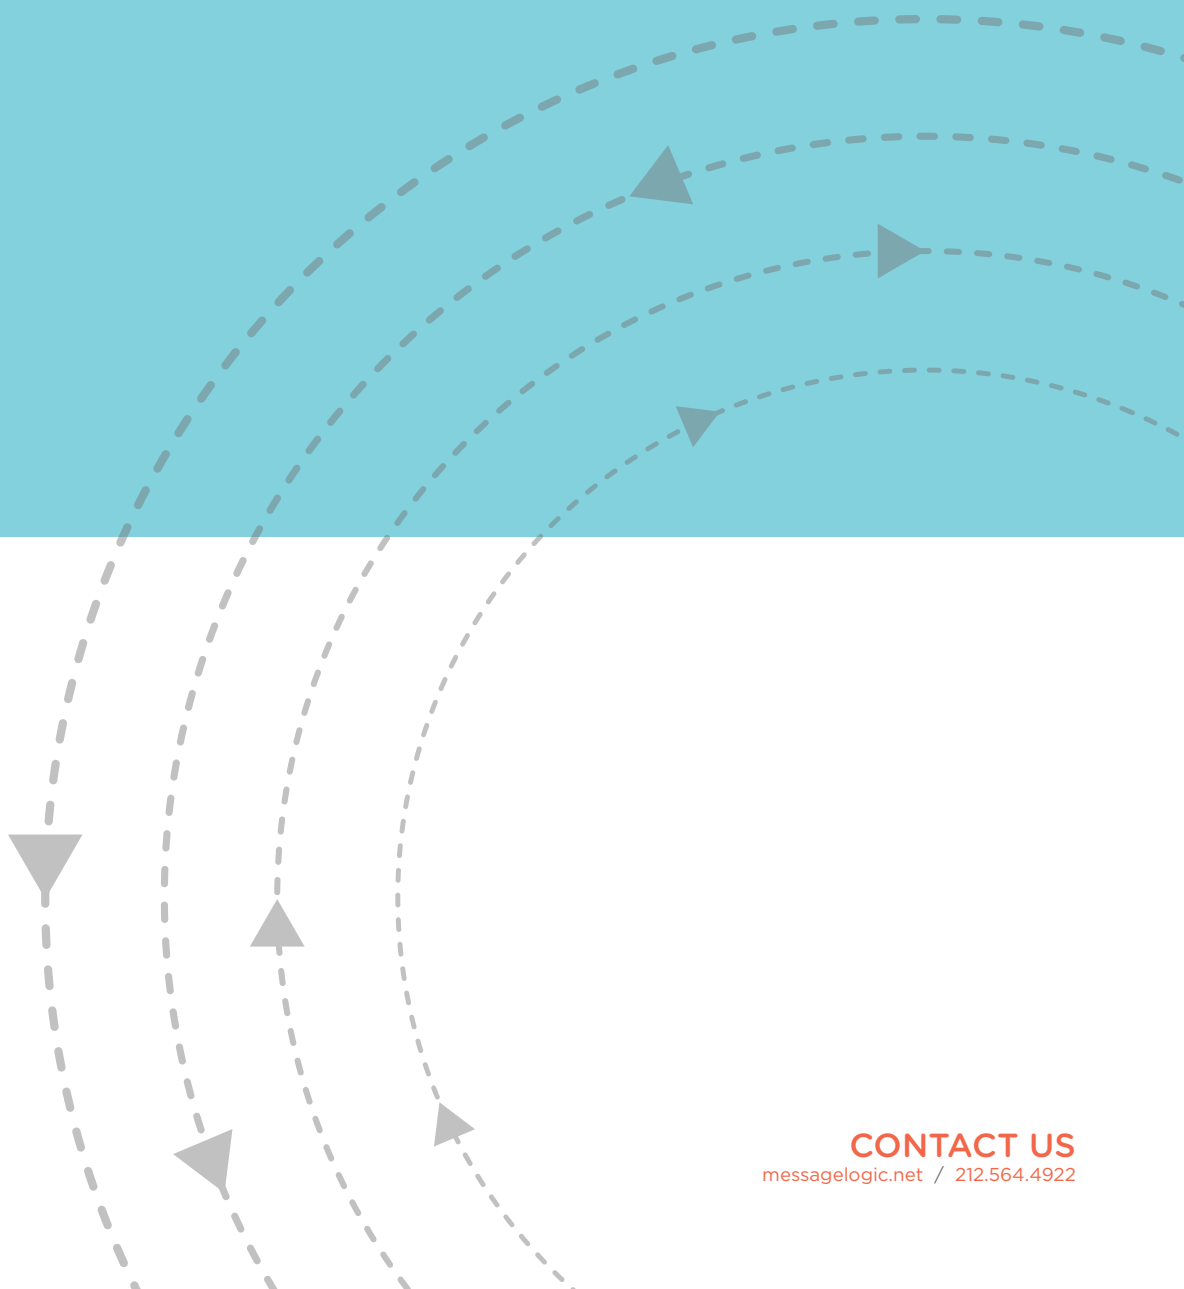

VMware (NYSE:VMW), the global leader in virtualization and cloud infrastructure, delivers customer-proven solutions that accelerate IT by reducing complexity and enabling more flexible, agile service delivery. VMware enables enterprises to adopt a cloud model that addresses their unique business challenges. VMware's approach accelerates the transition to cloud computing while preserving existing investments and improving security and control. With more than 500,000 customers and 55,000 partners, VMware solutions help organizations of all sizes lower costs, increase business agility and ensure freedom of choice.

About VMwareReady

Ready designates VMware's highest level of endorsement for products and solutions created by our established partners. Products and solutions that meet VMware Ready requirements will display the VMware Ready logo.

The VMware Ready logo helps customers quickly identify VMware partner's products and solutions that are optimized for VMware vSphere. VMware Ready products and solutions interoperate seamlessly with a virtual infrastructure and have met specific VMware integration and interoperability standards. The VMware Ready logo indicates the unique features and capabilities of VMware-integrated products and solutions and a solid commitment of long-term feature support.
